## Rapid Termination Technology Meets Plug-in Jumpers

HARTING has expanded its Han E<sup>®</sup> series to include a real multi-talent: the Han<sup>®</sup> ES Press. Its conductor termination technology based on the cage clamp termination allows the simple, quick and vibration-proof assembly of conductors with or without ferrule. The conductors can be pushed into the contact cavities without requiring force. The Han<sup>®</sup> ES Press plug-in jumpers also enable multiple contacts to be bridged directly at the connector.

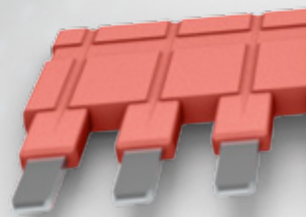

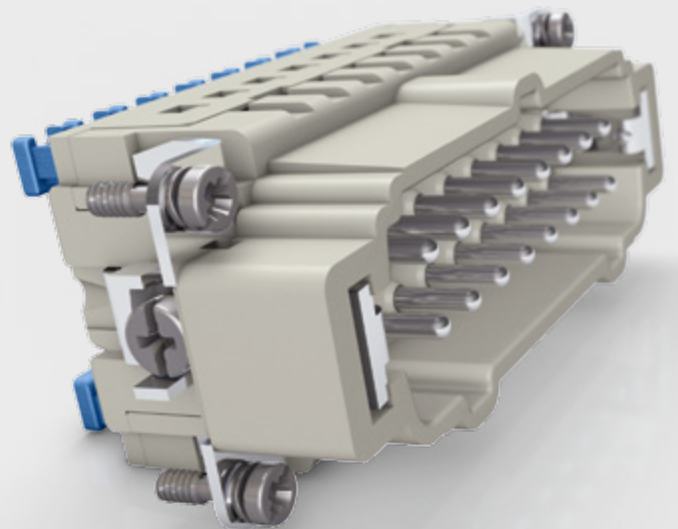

**Safe and quick assembly
